

SHIBUI SPA

Shibui Spa is a study in balance: of elegance and simplicity, tradition and modernity, nature and city. From this point of equipoise, we offer an experience that supports deep relaxation and healing.

The Japanese word “shibui” has no exact translation to English, but it refers to a beauty that is rich without being opulent; understated yet fine and grounded in natural elements. There is a stillness to it. This, to us, is essential, for it is from this stillness that the benefits of our healing therapies take shape.

To enter Shibui is to drop into a state of tranquility. Surrounded by wood, water and stone—much of it with a storied past—the atmosphere is luxurious yet uncomplicated. A lantern-lit swimming pool glimmers under the roof of a 250-year-old farmhouse that has been reconstructed in the spa by Japanese craftsmen, some of whom are “Living National Treasures” of Japan.

Appointed with five serene treatment rooms including a shiatsu room with a traditional Japanese bath.

Shibui practitioners are experts in their fields and approach their craft as art—with dedication, insight and compassion. Our targeted therapies are developed with simplicity and reverence for nature. Some are rooted in tradition while others employ more modern techniques; all are straightforward, deeply effective and utilize plant-based (and organic, when possible) products.
